

Birth control in Africa

Fewer than one in five married women in sub-Saharan Africa uses modern birth control, resulting in many unplanned pregnancies.

Contraception use by married women

	Sub-Saharan Africa	Uganda
Women with unplanned pregnancy	29%	46%
With unmet need for family planning	24%	41%
Teens pregnant, or had child	24%	25%

Uganda
Population expected to triple to 96 million by 2050
